PROFILE

I am **Aleksandr Vasiljev**, a **Junior Web Developer** at **Artix.lt** based in Vilnius, Lithuania.

Before transitioning to web development, I spent **15+ years as a professional chef**, where I mastered time management, teamwork, and precision—skills that now drive my success in IT. My background in the culinary field has honed my ability to think creatively and solve problems effectively, giving me a unique edge in project execution.

My career shift was fueled by a passion for technology, leading me to complete **PHP and Laravel studies** at the **Baltic Institute of Technology** in 2022. I now specialize in **PHP, WordPress, Elementor, HTML, CSS, JS, and jQuery**, combining my diverse experience with technical expertise to deliver creative and efficient web solutions.
